Jamali Card FAQ

What is Siru Jamali Card loyalty program?

The Jamali Card Loyalty program offers our valued customers an opportunity to receive reward points based on spend.

How does Siru Jamali Card loyalty program work?

For every dirham spent, you will receive reward points. Points can be redeemed for free products. Please log on to www.mena-cosmetics.com/jamali for detailed information about point collection and redemption.

You must be a Siru Jamali Card loyalty member and present your card in-store on every transaction.

How do I sign up to become a member?

Fill Siru Jamali registration form at the store and your preferred customer card will be mailed to you.

What if I have not used my loyalty card when making purchases? Are points included or have they been missed?

If any purchases were made and your loyalty card was not presented, you will not be able to accumulate points. Reward points are computer generated and cannot be recalculated or re-issued.

When do the reward points expire?

Rewards points are valid for 1 year from the date earned.

Where can I redeem my rewards points?

Reward points can be redeemed in store (not available online). Simply present your card at the start of your transaction.

Can my rewards be used on discounted / promotional sales?

The reward points can be used on all products in-store including discounted product or promotional sales.

Can the rewards points be redeemed for cash/credit, gift vouchers or lay-by?

These rewards points are not transferable, cannot be used on lay-by deposits or payments and cannot be redeemed for cash, credit or gift vouchers.

What happens if I have lost, misplaced or broken my membership card?

If you have lost, misplaced or broken your loyalty card please contact Middle East Natural Cosmetics (jamali@mena-cosmetics.com) or advise a sales member that you require a new card. There is an administration (replacement) charge of AED 25. Once paid a sales member will be able to scan a new card and replace the old membership number. This will not create another account for you.
